

REHABILITATION POLICY

K&R Fabrications is committed to preventing injury and illness through providing a safe and healthy working environment. However, if an injury/illness does occur we are equally committed to ensuring that the Occupational Rehabilitation process is commenced as soon as possible after injury/illness consistent with medical opinion. We will assist the injured/ill worker to return to work as early as possible after injury/illness as a normal expectation.

To enable our rehabilitation program to operate efficiently for all employees we will consult the employees and their representatives in order to provide suitable duties for an injured/ill worker as an integral part of the rehabilitation process.
